

Questionnaire to gather feedback from Mr. K. Mathivannan

Question	Yes/No	Comments
Are you pleased with the final product?	Yes	Yes, the finished pages look amazing and I look forward to making the website compatible for any screen it is viewed. I hope a little bit of security is also added in the future for certain elements like the contact form.
What are the strengths of the website created?	-----	<ul style="list-style-type: none"> ● Attractive website with contrast colour schemes, images and appropriate font styles. ● High clarity images. ● Easily navigable menu . ● Consistent style of pages. ● A fully functioning contact form connected to Google forms of the company's mail-id. ● The time line of the company is easily understandable and informative. ● Google map embedded, shows the exact location of the company. ● An easily navigable album slider in the gallery page with overlay text when hovered.
What areas of the website which require more development?	-----	<ul style="list-style-type: none"> ● The compatibility of the website in various screen sizes. ● Some text in the website are slightly difficult for few people to read.
Are you satisfied with	Yes	The logo has come together as expected.

the logo made for the company?		
Have you been happy with the level of consultation throughout the development of the website?	Yes	I am intrigued by the level of communication made by the student.
Was the product completed on time?	Yes	The product was completed as per the project schedule proposed in criteria C.
Have the specific performance criteria been met?		
1. Provide an easily navigable album slider with overlay text on hover for the gallery.	Yes	The album slider is sliding smoothly and the overlay text appears on hover. The manual controls for the slider also work effectively. Moreover, The album photo zooms in, on hover.
2. To create a website with consistent layout in all the web pages.	Yes	The website has a consistent layout. However, the layout changes a little bit when viewed on different screen sizes (mobile phone or tablet).
3. To create a website with an online contact form and clear contact details which helps the customers to easily contact Mr. Mathivannan enquiring about the businesses he runs.	Yes	The contact form is really great and it has all the important input fields. The contact form sends all the data entered in the fields to Google forms. The contact information placed in tables is very appealing and clear.
4. Provide Google maps in the website.	Yes	The maps show the exact location of the company

5. Object transitions for specific elements in the website.	Yes	Certain images on the website have automatic transitions when scrolled down.
6. All the menu items are linked to web pages and the drop downs for few menu items appear on hover.	Yes	Menus are very user friendly which helps the user to navigate through the website without any difficulty.
7. The short video demonstrating the primary business.	Yes	The video is very informative which I think the users of the website will like it. The video has readable subtitles too.
Would you use my services in the future again?	Yes	Of course!
